懷念繆伊洄校友（六三年崇基社工系）

繆伊洄校友和大部份中大早期校友一樣，經歷過抗戰、內戰、來港避亂、親身體驗了香港最困難的五十年代，也是崇基建校時馬料水大鐵筒時代的校友。其姊繆伊湄也是崇基校友。在艱苦年代長大的人，總帶有使命感，抱負也常超越其他人之上。

繆校友於一九六八年取得 Case Western Reserve University 社工碩士之後，又獲 The University of Massachusetts 博士學位，並由東岸來三藩市任加州大學心理系教授，亦全權負責成立三藩市列治文心理輔導中心。服務對象主要為華人。繆校友在一九九九年獲美國總統在白宮接見以加表揚。

美國排華政策一直至一九六七年新移民條例實施之後才廢除。當時移民名額由每年二百人增至二萬人以上，因此在美華人數量大幅度增加。三藩市因四季如春，多元化人文氣氛又重，定居於三藩市灣區的華人越來越多。金山居、大不易。如全美最貴的屋價、最貴之房租等，加上文化背景、經濟、語言、家庭、子女等問題及壓力，造成有越來越多華人需要作精神治療。繆伊洄校友的精神康服工作一投入便是二十餘年。她屬下之員工由起初的兩人增加至現在的三百多人，使她的輔導中心成為三藩市最大的公眾服務機構之一。她常在電視及報章專論心理康服等問題，並協助了很多華人在異國得到新生。

繆校友嘗遊遍大江南北、講學於國內，介紹美國精神治療的經驗。她有曾力主其夫在美家族把楊永泰先生（曾任湖北省政府主席）在上海的公館捐出作廣東省茂名市（人口約八百萬）轄下高州（人口約一百六十萬）市在上海之辦事處及文化中心。又捐助一座六層高之公共圖書館予茂名的高州市。去歲筆者回故鄉茂名，蒙僑辦親領參觀位處於楊永泰母校粵西名校高州中學內之楊永泰紀念圖書館。該校現有學生約八千人。（筆者祖父乃北京大學畢業，從政前曾任高州中學校長）市僑辦又言得繆校友之力，現設有一可觀之「楊永泰基金」作每年特設之獎助學金之用。

楊永泰圖書館內特設之文物室藏有百越至象郡，尤以高涼一帶之文物圖籍。筆者佇立良久，感慨良多，無繆校友之力，安可得而豐之？二零零零年楊永泰圖書館大樓落成，繆伊洄與楊家在美家人曾前往茂名市剪綵，獲茂名市及高州市表揚。中大校友遍佈四海，飄萍萬里，猶心懷祖國，春風沐雨，一若長江之水，源遠而流長。

繆校友深研現代佛學，源自嶺南禪宗，不崇偶像，主在思想。她曾與主事者在三藩市創立佛學研究中心，並著有英語寫作之佛教思想書籍，介紹東方精神文明於西方。

中文大學海外校友會常聚於其家，見其精舍建於三藩市鑽石崗。室內典雅而不華、幽清而明靜。繆校友自言每於清晨打座，而對曉靄翠谷，遠望三藩市海灣，藍天碧水，超然而塵出。

本年三月二十六日，繆校友心臟病突發去世，筆者及灣區人士均感痛失良師益友。悼念會當日人流不斷，以示對繆校友作最後致敬。

親仁而愛物，寧靜以致遠。崇基校歌有云：「濟濟菁英，天降大任。」繆伊洄校友可謂至矣！

Revision of OAACUHK Bylaw

--Tony Kwock

This year is the twenty-second anniversary of our alumni association. It is about time that we review and update our bylaw to reflect the change of time. Hence, our board of directors organized a bylaw revision committee consisting of John Lowe, Tony Kwock, Thomas Fung, Alex Ku, and Moira Shek. Our Vice President, John Lowe, chaired this committee. In the past few months, the committee worked very hard, with the assistance of our Hon. Legal Advisor, Mr. Chi-Hung Chan, Attorney-at-Law. We used a standard bylaw of a non-profit organization as a paradigm to fine-tune our bylaw. The major changes are the expansion of the number of Board of Directors from 11 to 21 who have voting rights and members are considered non-voting members.

Our board of directors approved the revised OAACUHK bylaw in a board meeting, on April 27, 2003. We published this revised OAACUHK bylaw in our website, www.oaa-cuhk.org, for your review and comments. If you don't have access to our website, you can call 510-559-8613 for a hard copy of the revised bylaw. We expect to receive your comments and acceptance by Monday, June 23, 2003. **If we do not receive your reply by then, we will assume that you delegate your authority to our board of directors to make decision on your behalf with regard to the acceptance of this revised bylaw.**

A Decade of Internet Browser

--Tony Kwock

A decade of Web browsing really changes the world. It changes the way people looking at things. Back in 1993, two young folks, Eric Bina and Marc Andreessen, built the first graphic-capable browser, Mosaic, in just three months. Mosaic Communications changed its name to Netscape in 1994, upgrading its Mosaic to Navigator. In 1996, Microsoft introduced its own browser, Internet Explorer. The browser battle then began. This year, Apple computer released a new browser, Safari. It is amazing how people do things we never anticipated based on a couple of new ideas back in 1993. With a browser, we are traveling or surfing in a sea of information beyond our personal horizon.

Anesthesiologist

Dr. Sun Leung

I wonder if you ever have any surgical procedure, be it minor or major, done under anesthesia. You probably remember your surgeon well. What about your anesthesiologist? (a physician who specialises in Anesthesiology) Anesthesiologists are among those physicians whom the lay people don't know much about. Many people I met have the impression that anesthesiologists anesthetise patients by giving one single shot .

What an anesthesiologist does is a lot more than that. Anesthesiologists are considered perioperative physicians who care for patients prior to, during, and after surgery. If you were to have surgery, you will be evaluated by your anesthesiologist prior to surgery. The anesthetic choice, potential risks and complication, post-operative management would be discussed in the interview. During surgery, anesthetics will be administered by your anesthesiologist. After surgery, your anesthesiologist will be responsible for your recovery from anesthetics, participating management of your postoperative care (e.g. pain relief, control of nausea etc) .

In general, there are 3 types of anesthetics: 1. general anesthetics 2. regional anesthetics 3. monitored anesthetic care with local anesthesia. General anesthesia refers to rendering patient unconsciousness (lack of consciousness), analgesia (lack of pain), amnesia (lack of memory) and lack of movement. General anesthetics are commonly used for abdominal , chest and brain surgery. On the other end of the spectrum, monitored anesthetic care with local anesthesia, like the one you would have for wisdom tooth extraction or colonoscopy (colon examination with a fiberoptic tube), maintains patient's consciousness and thus facilitate faster recovery. In unusual occasion, this type of anesthetic is used for brain surgery when the surgeon is working on a particular area and needs patient feedback. So if you walk into a case like this, you see someone who talks while his brain being exposed. Regional anesthetics refer to anesthesia being applied to certain region of the body. This involves injecting medicine around the nerves so that they stop conducting signals to the brain. This type of anesthetics is common used in surgeries involving limbs or obstetric procedure. An example of this is what people called epidural.

Anesthesiologists works not only in operating room but also in Intensive/Critical Care Unit, Pain Management Centers. Their subspecialties include Critical Care, Pain Medicine, Cardiac, Pediatric and Obstetric anesthesia. Additional information can be found in www.asahq.org

Disorder in the Courts (以下法庭笑話由李啓宇提供)

(These are from a book called Disorder in the American Courts, and are things people actually said in court. Some of these are excellent. Don't miss the last one!!)

Q: What is your date of birth?

A: July 15th.

Q: What year?

A: Every year.

Q: How old is your son, the one living with you?

A: Thirty-eight or thirty-five, I can't remember which.

Q: How long has he lived with you?

A: Forty-five years.

Q: What was the first thing your husband said to you when he woke up that morning?

A: He said, "Where am I, Cathy?"

Q: And why did that upset you?

A: My name is Susan.

Q: Were you present when your picture was taken?

Q: So the date of conception (of the baby) was August 8th?

A: Yes.

Q: And what were you doing at that time?

Q: Doctor, before you performed the autopsy, did you check for a pulse?

A: No.

Q: Did you check for blood pressure?

A: No.

Q: Did you check for breathing?

A: No.

Q: So, then it is possible that the patient was alive when you began the autopsy?

A: No.

Q: How can you be so sure, Doctor?

A: Because his brain was sitting on my desk in a jar.

Q: But could the patient have still been alive, nevertheless?

A: Yes, it is possible that he could have been alive and practicing law somewhere.
